

MD Locum Position Available – updated March 2010

Position description – A locum, or locums, are needed to replace one full-time salaried physician during her six-month maternity leave.

We are a collaborative, interdisciplinary Family Practice consisting of Medical Doctors, Nurse Practitioners, Physio, Diabetes Management, Social Workers, Chiropractic, Dietitian, Aging at Home and Health Promotion. We have a visiting Internist and Psychiatrist. We do diagnostic testing such as ECG, Holter Monitoring, Spirometry, and Ambulatory Blood Pressure Monitoring. We perform phlebotomy and collect lab samples for transport to the lab twice daily. There is a strong support team of RN, RPN and Medical Office Assistants. We are very interested in teaching and can accommodate up to two Residents at a time.

Practice model - Community Health Centre (CHC)

Patient volume – About twenty patients per day; 37 1/2 hours per week.

Compensation – Effective April 1, 2010, GBA CHC will be funded for physician salary of **\$237,619** yearly. The locum, or locums, would receive the equivalent hourly wage, which would be **\$121.86** per hour **plus 20%** in lieu of benefits (**\$146.23**).

Duration – April 2010 to October 2010.

Accommodation – To be arranged by Doctor ~ Suggestions can be given by Health Services Coordinator.

Language(s) Required – English
